Response Efforts - COVID 19

Allowable Activities for Remaining Funds. Consistent with PED’s priority to close the digital divide, LEAs must explain how they are using ARP ESSER funds to ensure access to digital devices and other technology for at-risk students and teachers who need them, as well as Internet technology support services. Digital devices must be capable of meeting at-risk students’ remote learning needs and teachers’ remote teaching needs. Digital devices must allow for the reliable download and upload of assignments, streaming of instructional videos, and participation in individual and group video conferencing. In the category below “purchasing instructional technology,” please include in the narrative an explanation of how the LEA is meeting this priority and a dollar amount that will be used for these purposes.

Interim Final Requirement: Under this requirement, an SEA must engage in meaningful consultation with various stakeholder groups on its ARP ESSER plan and give the public an opportunity to provide input on the development of the plan and take such input into account. Specifically, an SEA is required to consult with students; families; Tribes (if applicable); civil rights organizations (including disability rights organizations); school and district administrators (including special education administrators); superintendents; charter school leaders (if applicable); teachers, principals, school leaders, other educators, school staff, and their unions; and stakeholders representing the interests of children with disabilities, English learners, children experiencing homelessness, children in foster care, migratory students, children who are incarcerated, and other underserved students in the development of its ARP ESSER plan. Under the requirement, an SEA must also provide the public with the opportunity to provide input in the development of the plan and take such input into account.

*Meaningful consultation means each stakeholder group was afforded multiple opportunities to provide feedback on the LEAs ARP application prior to the application being submitted. Pursuant to 2 C.F.R. § 200.332(a)(5), all sub recipients as identified in Exhibit A, attached to this sub award, must permit PED and auditors access to records and financial statements as necessary.

GEPA Rubric

A satisfactory answer

- Describes potential barriers to accessing aspects of the proposed spending plan based on criteria such as gender, race, color, national origin, (dis)ability, and age
- Describes steps that will be taken to eliminate or reduce those barriers to ensure equitable access

May require revision

- May not clearly or completely describe potential barriers to accessing aspects of the proposed spending plan based on criteria such as gender, race, color, national origin, (dis)ability, and age
- May not clearly or completely describe steps that will be taken to eliminate or reduce those barriers to ensure equitable access

they do not have transportation.
Solution 1: Walatowa High Charter School will provide high school students with free access of college-level computer science courses and related resources during the school day to eliminate distance and transportation barriers.

Obstacle 2: Increasing the Participation of Students with Disabilities in 9-12 Computer Science Education

Solution 2:

- To meet the needs of disabled students, Walatowa High Charter School (WHCS) identifies, develops and implements Individualized Education Program (IEPs) for each

student who needs special education

- To provide all students but especially the special education student a constructive, enriching learning experience, a blended learning approach using digital adaptive

content, interactive technologies and teacher

ARP Grant Application

2021-2022

WALATOWA CHARTER HIGH

instruction will be utilized. The blended classroom will allow students with disabilities to interact with both the teacher and the classmates, while receiving personalized assistance with online reinforcement within the inclusive classroom.

- WHCSs STEM curriculum is designed to support exploration and discovery by those without computer science knowledge, so that all students can develop an understanding of these concepts through "play" and experimentation. The curriculum utilizes both plugged (computer-based) and unplugged (non-computerbased) activities. Each lesson module contains units of study which are scaffolded and sequenced to build individual students' skills and supporting a variety of skill levels.

Â¡ Obstacle 3: Promoting Equity in the Classroom

Â¡ Solution 3: To create nurturing equitable, engaging classrooms WHCS computer

ARP Grant Application

2021-2022

WALATOWA CHARTER HIGH

science/robotics participants will participate in professional learning opportunities to learn and implement equitable teaching practices

WHCS's hybrid learning model promotes educational equity by

- 1) Eliminating distance and transportation barriers of rural students to enrichment programs, services and resources
- 2) Narrowing the achievement gap by customizing learning opportunities for students to access high quality, low-cost and personally relevant educational materials
- 3) Ensuring equity among EL students and non-EL students
- 4) Improving the flow of educational information between all stakeholders to better meet students' needs and by
- 5) Providing equal access to standards-based, highest quality and competitive instructional resources thus providing equity

ARP Grant Application

2021-2022

WALATOWA CHARTER HIGH

for all learners.

An example of WHCSs equitable student access is the school's post-secondary agenda which allows all students to have equitable access to all college and career readiness programs and related services. WHCS provides access for college and career parent information presentations, college/career assessments, dual credit courses through IAIA, SIPI, UNM-LA, college/career campus visit, McDonalds Archway Employment opportunities and POJ Vocational Rehabilitation. A distinctive feature of WHCS's post-secondary success strategy is the employment of a tribal college and career counselor to examine community needs that fit with postsecondary opportunities, promote college fairs, college representative visits, summer programs, college applications, Free Application for Federal Student Aid (FAFSA) and ACT/SAT provided in the students' Native

ARP Grant Application

2021-2022

WALATOWA CHARTER HIGH

language. The counselor focuses on the longitudinal process of pre-college career planning, trains parents and matches student interests with appropriate schools, also tying this back in with our local communities.

To provide equity for students with disabilities, WHCS plans life after WHCS (Transition) for students with IEPs. Transitioning focuses on improving students' academic and functional achievement, addressing the unique strengths, needs, and preferences of each student. It involves preparing students for further education, employment, and/or independent living. The school-based Transition Planning Team (student, Parent/Guardian(s), IEP Team, Teachers, Related service providers, Executive Director Participating agencies) leads this process by developing student transition plans. These plans can include: College, Vocational education, Integrated
